OΔK Involvement and Candidate Statement

Society Involvement

I serve as the St. John's University circle current President and Social Media Chair. For president, I oversee the entire circle as well as work with our academic advisor and Vice President directly to make sure our members needs are met, voices are heard and opportunities are extended. Additionally, I assist on initiations and member involvement. I am also our Social Media Chair which handles all instagram posts, responses and activity. Furthermore, I was recently selected to serve on the Marketing Committee as a member for the 2022 NLC.

Candidate Statement

Interest in Serving OΔK

I am interested in serving OΔK on the Board of Trustees because I believe it will help further develop me as a leader and provided me with sustainable opportunities and connections. My dedication to leadership within my OΔK circle, St. John's experience, and community as a whole make me a fit candidate for serving OΔK on the Board of Trustees. I follow the leadership values set forth by OΔK, such as service, collaboration, integrity, and scholarship, and have excelled in the Five Pillars of Campus Life especially Academics and Research as well as Service to Campus and Community.

Engagement

As for my engagement with OΔK at the circle level, I serve as the St. John's University circle current President and Social Media Chair. For the position of president, I oversee the entire circle as well as work with our academic advisor and Vice President directly to make sure our member's needs are met, voices are heard, and opportunities are extended. Additionally, I assist with initiations and member involvement. I am also our Social Media Chair which handles all Instagram posts, responses, and activity. Furthermore, outside of my circle, I serve on the Marketing Committee, led by Jessica Cooper, as a member of the 2022 NLC. I am also a finalist for the scholarship award provided by OΔK for an internship with The Intern Group.

Leadership Philosophy

My leadership philosophy has always been rooted in respect. As a student leader on campus, as well as just a person, one of my main focuses has always been to show respect for everyone I encounter. Therefore, I will always be respectful to fellow members of the board, OΔK staff, students, parents, and community members. I will always try to treat everyone justly and fairly. Furthermore, I always wish to exhibit honesty and honest behavior and constantly grow and better myself as a person. I will always try to be a better person tomorrow, than I was the day before.

Purpose for Running

I wish to run for a student position on the Board of Trustees to better develop myself personally and professionally. Although I already have leadership experience that will transfer well into a student position on OΔK's Board of Trustees and allow me to be successful amongst trustees I think more is to be learned and developed.

The Future of the Society

A hope I have for the future of the society at large is moving towards a more inclusive society, and refining OΔK's values and commitment to Equity, Diversity, and inclusivity. Although "Towards a More Inclusive Society" is a mission OΔK highlights I think more is to be done. For example, it is amazing to have circles present at seven HBUC institutions but perhaps working towards a pitch for establishing a circle in more of the 100 HBUC's that don't currently offer OΔK circles.

For the future of OΔK, I see a society more focused on equity, diversity, and inclusivity & achieving the goal of more colligate circles within Historically Black Colleges and Universities as well as having more female representation within the society.
