220 Membership Qualifications

220.1 The qualifications for membership in the Society shall be exemplary character, scholarship and intelligence, service and leadership in campus or community life, good citizenship within the academic and larger community, and fellowship and consecration to democratic ideals.

Circles are strongly urged in selecting new members to consider at least one (1) person each year from each of the categories enumerated below above.

221.15 Pillars: In the selection of student members, the complete collegiate record of each candidate (both in and out of the local institution as far as possible, including also the candidate’s record in other institutions of higher learning attended) shall be obtained and classified into the following categories known as pillars: Academics and Research; Athletics; Service to Campus and Community; Communications; and Creative and Performing Arts.

221.4 In those institutions not ranking students, or those in which special problems relating to the computation of scholastic averages exist, the circles may employ alternate procedures to obtain evidence of a candidate’s scholastic ability. The Mission Committee must approve these procedures in advance.

221.5 In no case shall the number of students selected to membership in any one year by a circle exceed three percent of the total number of actively enrolled in a degree seeking program at the beginning of the academic year on the campus of the institution where the circle is located. In the case of institutions with a student enrollment of less than 1500, this limit shall be five percent. Notwithstanding the foregoing, those graduate and post-graduate professional students who have been awarded a baccalaureate degree at the same university at which they are enrolled as graduate students at the time of consideration do not count toward the one-half annual limit.

221.8 A student member shall remain a voting member while attending the institution where the electing circle is located.

224.1 Any individual who shall have achieved distinction in his or her own chosen profession or has rendered unusually significant service through his or her leadership in significant causes may be elected to honorary membership in any circle of the Society, although he or she may have had no previous connections with the institution in which the circle is located.

224.2 Under no circumstances shall a student be considered for honorary membership. Circles located in institutions having a student matriculation of less than 1,000 shall not elect more than two honorary members during any one academic year.

224.3 Circles located in institutions with more than 1,000 students may elect a maximum of four honorary members during any one academic year.

230.2 The selection of student members, faculty or staff members, alumni members, and honorary members shall be left to the discretion of the individual circles, subject to the conditions and provisions as to the number to be selected in the Omicron Delta Kappa Policies and Procedures Handbook.

230.3 In addition, in membership selection, circles should adhere to the following.

230.33 No circle shall initiate any person who has been initiated by another circle.

230.34 A simple majority of the voting members of a circle shall constitute a quorum in order to conduct a selection of members. An affirmative vote of no less than 60% of the voting members present shall be required to select any candidate, including posthumous and in memoriam candidates, to membership. Each circle however, by provision in the circle bylaws, may change the quorum or increase the percentage of the affirmative vote required for selection.

231 In Memoriam

231.1 In rare and exceptional situations, circles may request in memoriam membership to individuals who have exemplified the leadership values of Omicron Delta Kappa. In Memoriam membership is reviewed by the President/CEO after submission of a formal application by the circle. A completed application includes the following:

231.15 Letter of endorsement of the membership request by a surviving member of the proposed individual’s family

231.2 Upon receipt of the completed In Memoriam application, the National Headquarters will forward the application to the Mission Committee for its review and decision on whether to award membership.

240 Membership Processing

240.1 All applicants for membership in Omicron Delta Kappa shall complete the online National Lifetime Membership Application as approved by the Mission Committee.

240.2 The circle may choose to use a local application process for the purposes of membership selection; however, all applicants still must complete National Lifetime Membership
Application. This will be the only form of application for membership accepted by the National Headquarters.

240.3 Once the selection has been completed, a circle advisor will complete the membership approval and membership order through the established online portal. Only circle advisors or circle assistants may complete this process.

240.4 All applicants for membership must pay the National Lifetime Membership Fees in full prior to the initiation either through the national payment website or to the local circle. The local circle shall be responsible to ensure that all applicants have paid in advance of initiation. The National Headquarters will not accept direct payments from applicants in any form other than through the national payment website.

240.5 Any applicant who does not complete the initiation ceremony shall not be considered a member. The symbols of membership (certificate and pin) shall be returned to the National Headquarters within 30 days of the ceremony. Omicron Delta Kappa reserves the right to deny all or part of a refund for applicants who do not complete the initiation process.

250 National Circle

250.1 The Omicron Delta Kappa National Circle provides the opportunity for students, faculty, staff, and alumni of institutions where Omicron Delta Kappa does not have an active circle to be recognized for their leadership. It is expected that members of the National Circle will make every effort to establish a circle at their alma mater, but it is not a requirement. Individuals currently enrolled or working at a campus with an active circle must apply through that circle.

250.2 National Circle Membership Criteria

250.21 Lifetime membership in Omicron Delta Kappa is granted to those individuals who have excelled in scholarship, leadership, and service.

250.22 Members of the National Circle have all the same benefits as members initiated through on-campus circles.

Specific criteria based on membership classification status is below:

250.23 Undergraduates must be enrolled full-time in a degree-seeking program at an accredited four-year college or university.

250.231 They must have a minimum of 30 credit hours of coursework completed, with not less than 15 hours of coursework on the campus in which they are currently enrolled.

250.232 Prospective undergraduate members must all have a 3.5 or higher-grade point average on a 4.0 scale.

250.24 Graduate and professional students must be enrolled in a degree-seeking program at an accredited four-year college or university.

250.241 They must have a minimum of the equivalent of one semester of coursework completed on the campus at which they are currently enrolled.

250.242 Prospective graduate student members must have a 3.75 or higher graduate grade point average on a 4.0 scale.

250.243 If a student is enrolled in a graduate or professional program that does not use a grade point system, the applicant will be required to supply a letter of recommendation from their program director or dean of the graduate school.

250.25 Faculty, staff, and alumni of an institution are eligible for membership in the national circle under the same conditions as stated in these policies and procedures for a campus circle.
Faculty, staff, and alumni members may be nominated by current members of the National Circle or individuals currently associated with the campus.

Any individual who has achieved distinction in his or her own chosen profession or has rendered unusually significant service through his or her leadership in significant causes may be elected to honorary membership in the Society.

Individuals for honorary membership in the National Circle must be nominated by a current member or the Board Awards Committee and approved by the National Circle Advisory Team.

No more than four individuals shall be initiated as honorary initiates by the National Circle in any one academic year.

Under no circumstances shall a student be considered for honorary membership. Membership fees for National Circle honorary members shall be paid from Society funds.

The National Circle Advisory Team (NCAT) will develop the criteria and factors for determining acceptance into the National Circle. The application, review, and acceptance process will be managed by the National Headquarters staff. A web-based application program will be developed to manage all applications for membership based on these requirements and the leadership engagement reported in the National Circle Application.

Although the selection of a new member on the part of any individual collegiate circle shall be in general considered final, it shall nevertheless be the duty of the President/CEO to conduct a careful check upon the qualifications of every initiate.

Whenever, in the opinion of the President/CEO, any newly selected member shall appear to fall below the standard of eligibility prevailing throughout the Society, it shall be the duty of the President/CEO to investigate the case with the assistance of the local circle’s Circle Coordinator, Faculty Advisor, and other such persons as the President/CEO may deem proper.

Pending the outcome of such investigation, the President/CEO shall withhold the symbols of membership in the Society from the individual whose qualifications are in question, until action has been taken by the Mission Committee on the matter.

The Mission Committee shall have the power to confirm or reject the selection.

In the case of unfavorable action on its part, the circle in question shall be entitled to appeal the decision to the Board of Trustees, which will result in the suspension of the individual under investigation until the Board shall have disposed of the case.

Any circle, with the approval of three-fourths (3/4) of its voting membership may, having given 15 days written notice of the reasons therefore and having given thereafter the member in question an opportunity to be heard, expel any member for conduct unbecoming a member of this Society.

300 CIRCLES

310 Establishment of New Circles

310.1 The Society shall establish circles of the Society only at colleges and universities granting baccalaureate or higher degrees that are accredited by the appropriate regional accrediting agencies.

310.2 A circle is a local chapter established on a college or university campus to further the mission of the Society. The President/CEO or his or her designee shall furnish information concerning the Society to interested institutions, organizations, and individuals and shall encourage Society members to recommend institutions for consideration.

The process for awarding charters to new circles is as follows:

310.3 The Mission Committee shall review application materials and make a recommendation to the Board of Trustees to approve granting a charter to a new institution.

310.4 Upon the recommendation of the Mission Committee, the Board of Trustees shall approve or deny granting a circle charter to an institution. In order to expedite the review of petitions for charter, the Mission Committee and the Board of Trustees may consider the petitions and vote electronically outside the standard meeting schedule. Upon the decision of the Board, the President/CEO will notify the circle and schedule a chartering ceremony.

310.5 The institution shall have 12 calendar months from the date of approval to complete the chartering process, including the charter installation ceremony, initiation, and swearing-in of the circle’s first officers.

310.53 The original chartering fees, if paid, shall not be refunded.

301.6 The institution may seek an extension of up to six months. A letter from the president or chancellor of the institution must be submitted to the Board of Trustees stating the reasons for the delay in chartering and requesting an extension of no more than six months.

311 Definition of Institutional Campuses

311.1 A campus is defined by the institutional policies that determine where and how individuals may affiliate with honor societies, student organizations, and similar entities.
If an institution determines the individuals enrolled in colleges and universities granting baccalaureate or higher degrees from all its campuses must be able to affiliate with a single chapter of an affiliate organization, Omicron Delta Kappa will only establish one circle for that institution.

If an institution allows for multiple affiliated organizations at different campuses, then OΔK may permit circles to charter at individual campuses within the institution.

If any act of incorporation merges multiple separate institutions with a circle at each institution, the Society will permit the continuance of all circles affected if the institution allows separate recognition and operation.

**315 Charter Relationship Statement**

The mission of Omicron Delta Kappa is to identify, honor, and develop leaders in collegiate and community life; to encourage collaboration among students, faculty, staff, and alumni to advance leadership; and to promote and publicize our ideals.

Omicron Delta Kappa grants the privilege of establishing a circle to a college or university. The understanding is that the charter is granted not to the original select group of students, faculty, or administrators, but it is awarded to the institution which is then entrusted with the success and management of the circle.

By accepting the charter, the institution and circle agree to abide by and support the OΔK mission to the fullest extent possible through the following: assisting the advisors and officers of the circle; encouraging circle and campus members to participate in OΔK activities; promoting OΔK membership; and ensuring the uninterrupted operation of the circle during advisor transitions.

The conditions for granting the charter include the following:

1. The institution fully understands that a circle of Omicron Delta Kappa is not a “student organization” in that the responsibility for the management and success of the circle is not solely the responsibility of students. The institution holds the charter and, as such, will ensure that the advisors and student officers maintain the organization in active status as defined by the OΔK bylaws at all times.

2. The institution is responsible for ensuring that two faculty/staff advisors are appointed and actively engaged in the circle at all times. Advisors, except Alumni Advisors, must be permanent full or part-time paid employees of the institution. The part-time employees should not be graduate assistants or other similar temporary employees.

3. Circles may have alumni advisors who are not full or part-time paid employees of the institution.

4. The institution will ensure that the annual Institutional Membership Fee (formerly affiliation fee) is paid upon the first initiation of the fiscal year and that all financial transactions with OΔK will be managed appropriately.

The circle agrees that it will not adopt any other purpose that detracts from or conflicts with OΔK purpose or tax-exempt status.

Omicron Delta Kappa has a vested interest in the success and growth of a circle at all levels. The institution can expect the following from the national organization:

1. OΔK will provide initial and regular training for advisors and students officers.

2. OΔK will provide efficient and effective means for circles to manage the membership application and selection process.

3. OΔK will provide leadership education programs through the National Leadership Conference, regional workshops, and online platforms.
OΔK will maintain resources for circles to ensure the best possible recruitment, selection, and engagement of circle members.

If at any time either party consistently fails to meet the tenets of this agreement, either party may request to have the charter recalled by the national organization. The final recall of a charter requires the consent of the Society’s governing body.

Organization of Circles

Each local unit of Omicron Delta Kappa shall be called a circle and recognized by an institution of higher learning and privileged to select students and others to membership in the Society. Circles may be chartered at such institutions as may be recommended by the President/CEO and under such regulations as may be adopted from time to time as part of the Omicron Delta Kappa Policies and Procedures Handbook.

APPENDICES
Appendix A: Charter Relationship Statement

The mission of Omicron Delta Kappa is to identify, honor, and develop leaders in collegiate and community life; to encourage collaboration among students, faculty, staff, and alumni to advance leadership; and to promote and publicize our ideals.

Omicron Delta Kappa grants the privilege of establishing a circle to a college or university. The understanding is that the charter is granted not to the original select group of students, faculty, or administrators, but it is awarded to the institution which is then entrusted with the success and management of the circle.

By accepting the charter, the institution and circle agree to abide by and support the OΔK mission to the fullest extent possible through the following: assisting the advisors and officers of the circle; encouraging circle and campus members to participate in OΔK activities; promoting OΔK membership; and ensuring the uninterrupted operation of the circle during advisor transitions.

The conditions for granting the charter include the following:

1. The institution fully understands that a circle of Omicron Delta Kappa is not a “student organization” in that the responsibility for the management and success of the circle is not solely the responsibility of students. The institution holds the charter and, as such, will ensure that the advisors and student officers maintain the organization in active status as defined by the OΔK bylaws at all times.

2. The institution is responsible for ensuring that two faculty/staff advisors are appointed and actively engaged in the circle at all times. Advisors, except Alumni Advisors, must be permanent full or part-time paid employees of the institution. The part-time employees should not be graduate assistants or other similar temporary employees.

3. The institution will ensure that the annual Institutional Membership Fee (formerly affiliation fee) of $115 upon the first initiation of the fiscal year and that all financial transactions with OΔK will be managed appropriately.

4. The circle agrees that it will not adopt any other purpose that detracts from or conflicts with OΔK purpose or tax-exempt status.

Omicron Delta Kappa has a vested interest in the success and growth of a circle at all levels. The institution can expect the following from the national organization:

1. OΔK will provide initial and regular training for advisors and students officers.

2. OΔK will provide efficient and effective means for circles to manage the membership application and selection process.

3. OΔK will provide leadership education programs through the National Leadership Conference, regional workshops, and online platforms.

4. OΔK will maintain resources for circles to ensure the best possible recruitment, selection, and engagement of circle members.
If at any time either party consistently fails to meet the tenets of this agreement, either party may request to have the charter recalled by the national organization. The final recall of a charter requires the consent of the Society’s governing body.
Appendix B: National Circle Guidelines

Purpose

The Omicron Delta Kappa National Circle provides the opportunity for students, faculty, staff, and alumni of institutions where Omicron Delta Kappa does not have an active circle to be recognized for their leadership. It is expected that members of the National Circle will make every effort to establish a circle at their alma mater, but it is not a requirement. Individuals currently enrolled or working at a campus with an active circle must apply through that circle.

National Circle Membership Criteria

Lifetime membership in Omicron Delta Kappa is granted to those individuals who have excelled in scholarship, leadership, and service.

Undergraduates must be enrolled full-time in a degree-seeking program at an accredited four-year college or university. They must have a minimum of 30 credit hours of coursework completed, with not less than 15 hours of coursework on the campus in which they are currently enrolled. Prospective undergraduate members must all have a 3.5 or higher grade point average on a 4.0 scale.

Graduate and professional students must be enrolled in a degree-seeking program at an accredited four-year college or university. They must have a minimum of the equivalent of one semester of coursework completed on the campus at which they are currently enrolled. Prospective graduate student members must have a 3.75 or higher graduate grade point average on a 4.0 scale. If a student is enrolled in a graduate or professional program that does not use a grade point system, the applicant will be required to supply a letter of recommendation from their program director or dean of the graduate school.

Faculty, staff, and alumni of an institution are eligible for membership in the national circle under the same conditions as stated in these policies and procedures for a campus circle. Faculty, staff, and alumni members may be nominated by current members of the National Circle or individuals currently associated with the campus. Two faculty/staff members shall be chosen to serve as voting members for four-year staggered terms.

Any individual who has achieved distinction in his or her own chosen profession or has rendered unusually significant service through his or her leadership in significant causes may be elected to honorary membership in the Society. Individuals for honorary membership in the National Circle must be nominated by a current member or the Board Awards Committee and approved by the National Circle Advisory Team. No more than four individuals shall be initiated as honorary initiates by the National Circle in any one academic year. Under no circumstances shall a student be considered for honorary membership. Membership fees for National Circle honorary members shall be paid from Society funds.

The National Circle Advisory Team (NCAT) will develop the criteria and factors for determining acceptance into the National Circle. The application, review, and acceptance process will be managed by the National Headquarters staff. A web-based application program will be developed to manage all applications for membership based on these requirements and the leadership engagement reported in the National Circle Application.

Benefits
Members of the National Circle have all the same benefits as members initiated through on-campus circles.

Recruitment, Application, Selection, Fee Payment, and Initiation

Recruitment

The National Headquarters will recruit at institutions in the following priority order:

1) Campuses that previously held installed circles
2) Large state and regional universities with a focus on the western U.S. and where states have determined that information needs to be released under Freedom of Information Act (FOIA) requirements
3) Other colleges and universities where interest is expressed by individuals

The National Headquarters will request mailing lists of individuals who meet the national minimum requirements using national and campus standards for lists. Lists will remain confidential and be purged in accordance with established policies.

Using the emails provided, the National Headquarters will send emails according to the schedule established by the NCAT.

Where feasible and cost-effective, the National Headquarters will place advertisements in print and electronic media on targeted campuses and use social media to every extent practical.

Where permitted and cost-effective, the National Headquarters staff will conduct on-campus recruitment for members. While initially this recruitment would target individuals on campuses where circles do not exist, the larger purpose of this kind of recruiting is to establish campus-based circles.

Deadlines for the fall and spring application and initiation process shall be published no later than August 1 each year for the immediately following academic year.
